Atascosa County,

January 2012

This report shows case counts of notifiable disease for the reporting period

1/1/2012 to 1/31/2012

Disease	Confirmed F	Probable	no
Amebiasis	0	0	
Anthrax	0	0	

Botulism, foodborne 0 Botulism (infant) 0 Brucellosis 0 Campylobacteriosis 0

Chickenpox (varicella) 0
Chlamydia 19
Creutzfeldt-Jakob disease (CJD) 0

 Credizierut-Jakob disease (CDD)
 0

 Cryptosporidiosis
 0

 Cyclosporiasis
 0

 Dengue
 0

 Diphtheria
 0

Ehrlichiosis
Encephalitis (specify etiology)
Escherichia coli enterchamorrhagis

Pertussis

Yersiniosis

Escherichia coli,enterohemorrhagic
Gonorrhea

Haem influ type b infections, inv
Hantavirus infection

Hemolytic uremic syndrome (HUS) 0

Hepatitis A (acute) 0

Hepatitis B 0

Hepatitis C 0

Hepatitis D 0

Hepatitis E 0
Human Immunodeficiency Virus (HIV) 0
Legionellosis 0
Listeriosis 0
Lyme disease 0

 Malaria
 0

 Measles (rubeola)
 0

 Meningitis, Aseptic
 0

 Meningitis, Bacterial
 0

 Meningitis, Other
 0

 Mumps
 0

 Plague
 0

 Poliomyelitis, acute paralytic
 0

 Q fever
 0

 Rabies, human
 0

 Relapsing Fever
 0

 Rubella
 0

Salmonellosis, inc. typhoid fever Shigellosis Silicosis Smallpox Spotted Fever Streptococcal disease (group A or B), inv. Syphilis Tetanus **Trichinosis**

 Tuberculosis
 0

 Tularemia
 0

 Typhus
 0

 V hemorrhagic fever
 0

 Vibrio infection, inc. cholera
 0

 Yellow fever
 0

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occurred within the reporting period

A case is not counted if:

- · investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2011 will be published in the DSHS HSR 8 2011 Annual Communicable Disease Report.

* Denotes data unavailable

Outbreaks of Significance NONE

This report shows case counts of notifiable disease for the reporting period

1/1/2012 1/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occured within the reporting period

A case is not counted if:

- · investigation or classification is pending
- · onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2011 will be published in the DSHS HSR 8 2011 Annual Communicable Disease Report. * Denotes data unavailable

Outbreaks of significance: NONE

For general questions on content of this report, contact: Connie Alaniz 210-949-2066 connie.alaniz@dshs.state.tx.us

To report a notifiable disease, call 210-949-2121 or fax 210-692-1457

This report shows case counts of notifiable disease for the reporting period

1/1/2012 to 1/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occured within the reporting period

A case is not counted if:

- investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2011 will be published in the DSHS HSR 8 2011 Annual Communicable Disease Report.

This report shows case counts of notifiable disease for the reporting period

1/1/2012 to 1/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occured within the reporting period

A case is not counted if:

- investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2011 will be published in the DSHS HSR 8 2011 Annual Communicable Disease Report.

* Denotes data unavailable

Outbreaks of significance: NONE

This report shows case counts of notifiable disease for the reporting period

1/1/2012 to 1/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occured within the reporting period

A case is not counted if:

- · investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2011 will be published in the DSHS HSR 8 2011 Annual Communicable Disease Report. * Denotes data unavailable
